

## Superstore Sales Visual Report

Insight: Technology category achieves the highest total sales

Sales by Region: East & West are  
top-performing regions

**Profit vs Sales:** “Higher sales generally lead to higher profit, but some items still show losses.”

 **Summary-Slide/Storyboard**

- Technology is the top-selling category across the Superstore dataset.
- West and East regions generate the highest total sales, while South region performs the weakest.
- Profit vs Sales shows a positive overall trend, but some items still generate losses due to high discounts or low profit margin.
- Performance varies significantly across categories and regions, indicating uneven profitability distribution.
